Merter Çoban

Computer Engineer

Drawing on the theoretical knowledge I've gained through my experiences, I am eager to explore new opportunities. I maintain high motivation to successfully complete the tasks entrusted to me, always keeping my team's goals in mind. Through my work in various teams, I continue to develop my skills, striving to meet deadlines and deliver quality results. I am committed to contributing both individually and collaboratively to ensure the success of the projects I am involved in.

- Microsoft Power BI
- PostgreSQL
- JavaScript
- HTML5 - CSS3
- GitHub
- Vue.JS
- Jira

Disability

- **%48 (type 1 diabetes and celiac disease)**

Language

- **English (Upper Intermediate)**
- **German (Beginner)**

Driver License

- **B**

Experience

Mercedes Benz Otomotiv

- SAP Data Analyst Long Term Intern (06/2024 -)

I was responsible for monitoring reporting processes, overseeing control systems, and preparing reports. Additionally, I gained experience in cloud computing using Microsoft Azure. I also actively participated in creating reports with Microsoft Power BI, retrieving necessary data using SQL, and contributing to documentation preparation. Furthermore, I conducted report analysis and supported data-driven decision-making through efficient reporting solutions.

- Front End Developer Long Term Intern (11/2023 - 06/2024)

I developed my skills in the JavaScript programming language and the Vue.js framework. Also deepened my understanding of project management and teamwork through the use of JIRA and GitHub. Additionally, I enhanced my proficiency with Git and Docker Desktop

DSI - General Directorate of State Hydraulic Works

- Front End Developer Intern (07/2023 - 08/2023)

Using HTML5, CSS3, and JavaScript, I developed the front-end of an admin management panel for the nursery system under DSI as part of a compulsory internship. Additionally, I collaborated with the team to align the design with user requirements and contributed to optimizing the performance of the system.

Co-one App

- Protator (02/2023 - 09/2023)

As a data tagger, I contribute to the learning of the AI model with data tagging. The tagged data constitutes the training set to be used in the training of the model.

Etiqa Bilisim Hizmetleri A.S

- Front End Developer Intern (09/2022 - 10/2022)

I was responsible for developing the front end of a biography website using HTML5 and CSS3 during a volunteer internship.

Volunteering

AYBU Technospace Club

- Social Media Video Editor (08/2023 - 06/2024)

I prepared informational videos for young people eager to learn and utilize technology. Additionally, I collaborated with the team to create engaging content that promoted technological awareness and inspired innovation.

- Siharius UCAV Team Captain (08/2023 - 11/2023)

I gained valuable experience in team building, organizing essential meetings, and leading a team as the captain of an unmanned aerial vehicle team. Together with a group of technology-driven young individuals, I helped form a team with the goal of competing in the Teknofest competition.

Istanbul Efor Spor Club

- Social Media Manager (09/2020 -)

I manage the Instagram and Facebook pages of an amateur sports club, handling necessary social media tasks such as creating posts, stories, and communicating with customers via Direct Message. Additionally, I help organize beneficial activities for children, contributing to their sports development.
